EXECUTIVE OVERVIEW

1 YAS STRATEGIC OBJECTIVES 2017/18

Ju

This is an overview of the Trust's strategic objectives alongside their respective RAG ratings. Exception commentary is provided for objectives considered to be Amber and Red rated.

YAS STRATEGIC OBJECTIVES 2017/18							
Strategic Objective	No	Trust Level Objectives	Lead	Jul	Aug	Sep	COMMENTS/EXCEPTIONS
1 Excellent Outcomes	1.1	To deliver effective and efficient emergency call handling performance & increase capability to deliver non-conveyance	EDOps	Green			
	1.2	To develop integrated patient care through our NHS111 delivery model aligned to national & local strategies for integrated urgent care	DPUC	Green			
	1.3	To deliver safe & effective urgent & emergency care, supporting staff to make appropriate non-conveyance decisions.	DPUC	Green			
	1.4	To create a sustainable core A&E service, with the right number of skilled people in place (A&E Transformation Programme)	EDOps	Green			
	1.5	To sustain and deliver improvement in identified patient care and safety priorities	EMD	Green			
2 Improvement & Innovation	2.1	To develop and implement an ICT strategy which enables delivery of YAS strategic priorities and is aligned to the digital roadmap across STPs	EDoF	Green			
	2.2	To embed a robust strategic and operational business planning process into the organisation	DPD	Green			
	2.3	To implement the performance management framework to enable devolved leadership and accountability.	EDQGPA	Green			
	2.4	To enhance service improvement capability and provide assurance through programme and project management.	EDQGPA	Green			
	2.5	To define, deliver and implement an integrated and systematic approach to quality improvement for the Trust.	EDQGPA	Green			
	2.6	To develop research capability in pre-hospital urgent & emergency care, develop research skills & expertise	EMD	Green			
	2.7	To deliver a communications function in support of a motivated workforce & external reputation as a trusted system partner	DPD	Green			
	2.8	To create a sustainable, efficient, patient focused and fit for future PTS service (PTS Transformation Programme)	DPUC	Red			PTS Transformation programme has been recast into a broader PTS Programme to reflect actions required for CQC/Quality improvement, Bids and mobilisations in South and East. PTS Management restructure is 80% complete with recruitment to remaining post progressing. As managers are now moving in to post a further update will be provided in September giving details on milestones to move the PTS programme forward and out of its current red rating. North PTS procurement is underway, and this will have Senior PTS resource capacity impact during Sept-Dec.
	2.9	Implement Hub and Spoke and Ambulance Vehicle Preparation to improve quality and performance	CEO	Yellow			Doncaster business case to be submitted to HS Programme Board in August with subsequent committee reviews and Trust Board in September. Criteria for further sites to implement MR/VPS (AVP) under construction to be shared at July Programme Board to influence the business cases.

YAS STRATEGIC OBJECTIVES 2017/18

Strategic Objective	No	Trust Level Objectives	Lead	Jul	Aug	Sep	COMMENTS/EXCEPTIONS
3 Our People	3.1	To refresh the organisation's vision & values, building a positive working environment, developing culture & behaviours	DWF				The new YAS values will be formally launched at the management conference on 5 September. Currently work is on its way in developing a values based behavioural framework that will be an instrument in embedding the values across the organisation. This piece of work has also engaged a large part of the organisation across the Trust and been discussed at TMG, TEG and Board.
	3.2	To prioritise the health and well-being of all staff	DWF				The Health and Wellbeing strategy is going to board in August. Key staff who will deliver health related CQUINs (Head of Well Being; H&WB adviser and Occ Health practitioner) have now been appointed. Work is ongoing to procure external providers to deliver mental health first aid training to clinical supervisors. The Healthy Food CQUIN continues to be compliant. Flu vaccination uptake incentives have been agreed. Vaccines have been ordered (to include non front line staff offer) and inoculation plans are being developed. The campaign will run between 19th September and 31st December.
	3.3	To build equality and diversity within our organisation to reflect the communities we serve.	DWF				
	3.4	To develop high quality, relevant and well governed clinical education processes and activity	EMD				
	3.5	To develop a workforce strategy to deliver integrated urgent & emergency care	DWF				
	3.6	To address immediate workforce challenges and develop appropriate processes & controls.	DWF				Structure proposal is going to TEG for budget approval. Work to review and evaluate systems and process in Job Evaluation and Remuneration will take place when the new structure is in place and the new role in governance is appointed to.
4 System Partner & Resilience	4.1	To maintain a high standard of capability for emergency planning, resilience, response and business continuity	EDOps				
	4.2	To develop collaborative relationships with Y&H stakeholders, building the reputation of YAS as a trusted system partner	DPD				
	4.3	To implement professional, co-ordinated approach to public & community engagement and corporate social responsibility	CEO				
	4.4	To implement a robust business development function and bid management process for the organisation	DPD				The Planning and Development team, with colleagues from U&EC Directorate have undertaken an externally facilitated 2 day training course - Business Development in the NHS and Best Practice Bid Writing. Work is ongoing to further develop and enhance the skills within the team in readiness for upcoming tenders.
5 Safe, Caring & Efficient	5.1	To sustain a safe compassionate service through compliance and continued improvement in all statutory functions	EDQGPA				
	5.2	To further embed the risk management strategy with devolved leadership and accountability in all areas	EDQGPA				
	5.3	To produce financial plans and efficiency programmes to support delivery of our Trust strategy	EDoF				
	5.4	To deliver an enhanced finance function, responsive to core operational delivery and system transformation	EDoF				
	5.5	To produce and implement 5 year strategies for estates and fleet aligned to the overarching vision for the trust	DEF				

The Single Oversight Framework is designed to help NHS providers attain and maintain Care Quality Commission ratings of 'Good' or 'Outstanding'. The Framework doesn't give a performance assessment in its own right. The framework applies from 1 October 2016, replacing the Monitor 'Risk Assessment Framework' and the NHS Trust Development Authority 'Accountability Framework'. The Framework will help identify NHS providers potential support needs across the five themes illustrated below alongside YAS indicators where available. To date Finance and Use of Resources is the only theme which is rated nationally.

Quality of Care

		See & Treat F&F test % positive	NA
AQJs (Annex 2)	ROSC in Utstein group (May17)		38.9%
	Stroke in 60 mins (May17)		47.1%

Agency spend (distance from providers cap)	1
OVERALL USE OF RESOURCES RATING	1

*1=Providers with maximum autonomy; 2=Providers offered targeted support; 3=Providers receiving mandated support; 4=Special measures

This section provides an overview of internal transformation programmes and external factors to help determine if our internal change plans are aligned to external system pressures.

Internal

- **Hub & Spoke:** Remains **Amber**
 - Doncaster business case to be submitted to HS Programme Board in August with subsequent committee reviews and Trust Board in September.
 - Criteria for further sites to implement MR/VPS (AVP) under construction to be shared at July Programme Board to influence the business cases.

- **Urgent Care:** Not reported this month
 - The next phase of the Urgent Care Programme is currently under discussion by TEG as part of strategy discussions. The Urgent and Emergency Care Board has now been established to further progress strategy direction.

Service Improvement

- **A&E:** Remains **Green**
 - Changes in personnel and lead responsibilities have temporarily delayed the implementation and progress of some activities
 - An interim senior responsible officer has been identified.
 - A review and realignment of all projects and milestones has been undertaken.
 - No major changes to overall completion dates are expected and lead responsibilities within individual projects have now been identified.
- **PTS:** Remains **Red**
 - Offers accepted for Head of Service and Standards, Senior Logistics Manager and Operations Manager West and Quality Lead. Head of Service and Standards and Senior Logistics Manager roles to commence in August. Head of Business Systems role is being reviewed.
 - Fleet's vehicle replacement paper approved by YAS Board for 24 new PTS vehicles to meet requirements of South Yorkshire mobilisation contract for vehicles to be 5 years of age or less.

External

- Winter levels of ED demand across the region, with no particular specific cause will increase pressure on A&E Operations. Hospital handovers appear to be generally improving, however, this is a seasonal trend and are anticipated to deteriorate again soon.
- Letters received from NHSE / I placing requirements on all A&E Delivery Boards to develop Winter Plans by September increasing pressures for all Providers to develop these earlier. YAS has completed this and CONOPs plus other updates already out to A&E DBs.
- Ongoing focus on the development of Front Door Streaming and Urgent Treatment Centres increases pressure to access and utilise already limited primary care resources; particularly coupled with the requirement for increasing out of hours primary care provision.
- Hospital reconfigurations continue to be modelled throughout the region, immediate programmes taking place are:
 - Phase 2 within Mid-Yorkshire Hospitals FT – implementation 4th September – operation plan in place
 - Stroke reconfigurations across South Yorkshire and West Yorkshire STP footprints
 - Calderdale and Huddersfield FT
 - County Durham and Darlington FT
 - South Tees FT Friarage Hospital
- Local A&E Delivery Plans are looking at how to strengthen the community response to better support greater use of alternative diversionary pathways (shifting demand from Emergency Departments).
- Ongoing pressures around availability and demand from Care Homes – creating pressures on discharging patients from hospital and additional demand, respectively.

Our Performance July 2017

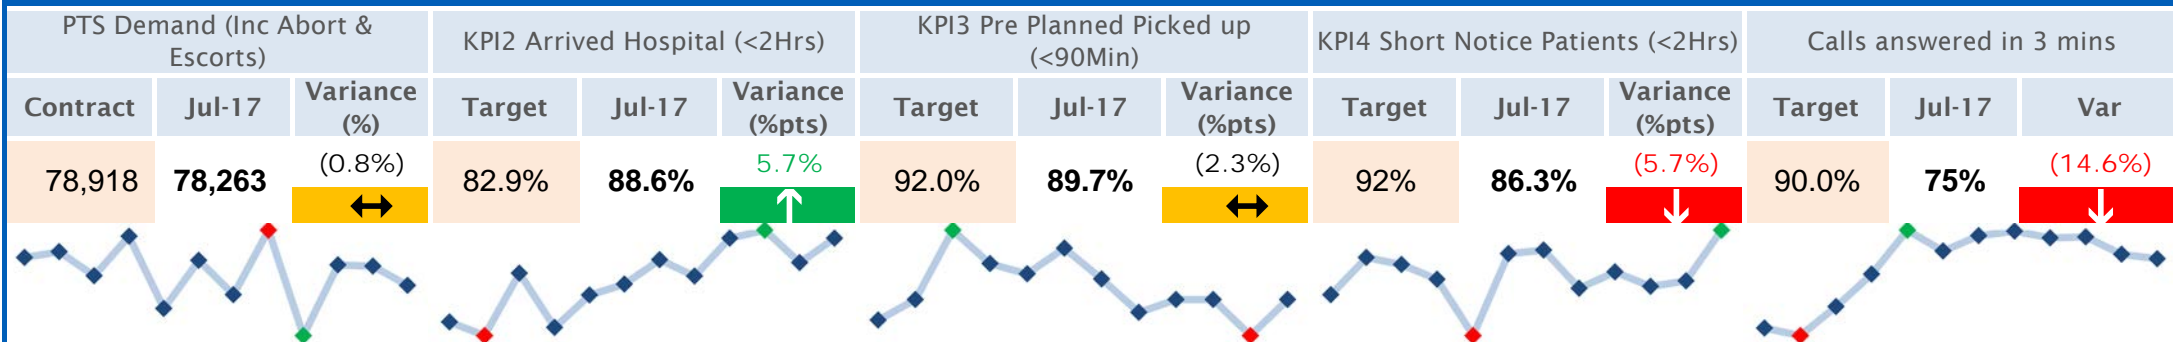

- ↓ 75 per cent received a response in 8 mins, 25 seconds for Cat 1 calls, down by 32 seconds.
- ↓ Ambulance responses on Scene down 1.8% YTD
- ↑ PTS KPI 2 continues to be above target at 88.6% for July
- ↑ Calls transferred to a CAS Clinician in 111 is above 30% target at 34.5%

RISK RATING: Under the "Single Oversight Framework" the Trust's rating for July 2017 is 1 (1 being lowest risk, 4 being highest risk). The I&E margin is below 1% this month, meaning a rating of "2" for that metric. This is expected and in accordance with the Plan submitted in June 2017 and is forecast to improve to "1" in September 2017 and remain at 1 through to forecast outturn in March 2018.

The Trust submitted a financial plan to NHS Improvement with an annual planned surplus of £53k for 2017/18, which has since been revised to an planned £3,408k surplus in line with the

agreed control total. The Trust has reported a breakeven position against plan as at the end of July (Month 4). Income is lower than plan by £995k, mainly due to the non-achievement of the CQUIN income 'risk reserve' (relating to non-achievement of the 2016/17 control total) and the funding included in the plan for the Clinical Advisory Network not yet agreed with Commissioners (which is offset by a corresponding favourable variance on expenditure on the Clinical Advisory Network).

In terms of key service line variances YTD: The A&E service line (including EOC and Special Operations) is £2,505k favourable against plan mainly due to; vacancies and under utilisation of the overtime budget. The underspend in pay is partially offset by overspend in non-pay including fire service responders and meal break payments and an income shortfall due to the none achievement of CQUIN. PTS is adverse to plan by £308k due to the delay in the management restructure impacting on CIP delivery which is partly offset by savings on vacancies within the Directorate. Fleet is adverse to plan by £291k which is mainly due to under achievement of CIPs year to date on a number of schemes including accident reduction, CVL contract and also a proportion of CIPs still yet to be identified by the Directorate.

CASH: At the end of July 2017, the Trust's cash position was £28.6m against a plan of £19.2m, giving a favourable variance of £9.4m. This is mainly due to payables being significantly higher than plan (£7.9m) and the purchase of capital lower (£2.6m) giving an aggregate positive variance of £10.5m; this is partially offset by receivables being £1.5m greater than plan. The balance relates to changes on provisions.

Capital spend at the end of July 2017 is £85k against a plan of £727k for the YTD. The overall plan is for £13.232m expenditure (allowing for disposals of £1.05m this will result in a charge of £12.182 against the Capital Resource Limit). At the end of June 2017 NHS Improvement have approved the CRL of £8,533k further approval will be required from NHS Improvement to use our operating surplus/cash reserves

The Trust has a savings target of £12.441m for 2017/18. 128% delivery of the CIP target was achieved at Month 4 and 75% of this was achieved through recurrent schemes. Non-recurrent schemes have contributed £2,216k of the year to date savings. This creates an overall favourable variance against plan of £1,172k, although noting the underlying recurrent financial risk for future years due to non-recurrent CIP delivery in 2017/18.

	Month	YTD	Trend 2017-18
<p>RISK RATING: Under the "Single Oversight Framework" the overall Trust's rating for July 2017 is 1 (1 being lowest risk, 4 being highest risk). The I&E margin excluding STF funding is below 1% this month. This is expected and in accordance with the Plan submitted in June 2017 and is forecast to improve to "1" in September 2017 and remain at 1 through to forecast outturn in March 2018.</p>			
<p>EBITDA: The Trust's year to date Earnings before Interest Tax Depreciation and Amortisation (EBITDA) position at month 4 is £4.553m against a plan of £4.509m, a small favourable variance of £44k against plan.</p>			
<p>SURPLUS: The Trust has reported a surplus (including STF) as at the end of July (Month 4) of £622k which is break even against the planned surplus of £622k.</p>			
<p>CAPITAL: Capital spend at the end of July 2017 is £85k against a plan of £727k for the YTD. The overall plan is for £13.233m expenditure (allowing for disposals of £1.05m this will result in a charge of £12.182 against the Capital Resource Limit). At the end of June 2017 NHS Improvement have approved the CRL of £8,533k, further approval will be required from NHS Improvement to use our operating surplus/cash reserves.</p>			
<p>CASH: At the end of July 2017, the Trust's cash position was £28.6m against a plan of £19.2m, giving a favourable variance of £9.4m. This is mainly due to payables - in particular accrued expenditure - being significantly higher than plan (£7.9m) and the purchase of capital lower (£2.6m) giving an aggregate positive variance of £10.5m; this is partially offset by receivables being £1.5m greater than plan. The balance relates to changes on provisions.</p>			
<p>CIP: The Trust has a savings target of £12.441m for 2017/18. 128% delivery of the CIP target was achieved at Month 4 and 75% of this was achieved through recurrent schemes. Non-recurrent schemes have contributed £2,216k of the year to date savings. This creates an overall favourable variance against plan of £1,172k, although noting the underlying recurrent financial risk for future years due to non-recurrent CIP delivery in 2017/18.</p>

Local CQUIN developed jointly with YAS and finalised as part of the Q3 2017/18 reconciliation		£136,000	NA	NA	NA	NA									
Total		£272,000													

Comments: Development of the Patient Portal CQUIN was delayed in Q4 due to technical issues outside YAS remit. This was further compounded by the resignation of the dedicated person working on the front end of the development with our patients. An action plan was delivered to commissioners along with a proposal for delivery milestones for 2017-18. Whilst the milestones have yet to be approved we continue to work to these in the development of the Portal. This issue has been highlighted with the relevant YAS lead and a new member of staff has now been appointed.

Total Calls

Commentary

Total Demand was (3.7%) below forecast. This is a decrease in call numbers of 1.9% vs July last year.

H&T is 18.5% above forecast. This is an increase of 20.5% in the amount of H&T carried out vs July last year

ST&R was (1.8%) below forecast. This is a decrease of (0.7%) in the amount of ST&R carried out vs July last year.

ST&C was (4.0%) below forecast. This is a decrease of (2.5%) in the amount of ST&C carried out vs July last year.

These figures show sustained progress in reducing our covewayance rate

* HCP calls have been taken out of the performance calculation for Greens as they request different response times

ARP 2.2 Pilot Review

Phase 2.2 of the NHS England-led Ambulance Response Programme went live on 20th October 2016. Yorkshire Ambulance Service is one of two ambulances services nationally to belong to the trial. The programme will assess the impact on the patients both in terms of quality and performance. There has been a further review of the clinical codes within both NHS Pathways and AMPDS to ensure the most appropriate clinical response is made to every call and will see significant changes to the way we deliver our service and respond to patients. It will also enable us to decide on the most appropriate response for patients' needs. The aim is to examine whether the current system was appropriate in an environment where a longer time period was given to categorise the nature of the call and only those patients that were in cardiac arrest or at risk of cardiac arrest should receive an immediate response. It should improve the management of demand and allocation of a clinically-appropriate response and therefore deliver the right care, in the right place, at the right time. It will help to inform potential future changes in national performance standards.

Category1 – Cardiac arrest or peri-arrest (Response standard within 8 minutes)

9.3 Tail of Performance

ARP 2.2	50th Time	75th Time	95th Time	99th Time
Category1	00:06:00	00:08:25	00:14:07	00:21:27
Category2R	00:10:25	00:17:14	00:36:49	01:04:22
Category2T	00:12:14	00:21:13	00:50:48	01:31:08
Category3R	00:16:06	00:30:51	01:15:43	02:15:32
Category3T	00:23:17	00:50:14	02:11:28	04:11:32

9.4 Demand and Excessive Responses with Tail of Performance

Category1 Demand and Excessive Responses

Category2 Demand and Excessive Responses

Category3 Demand and Excessive Responses

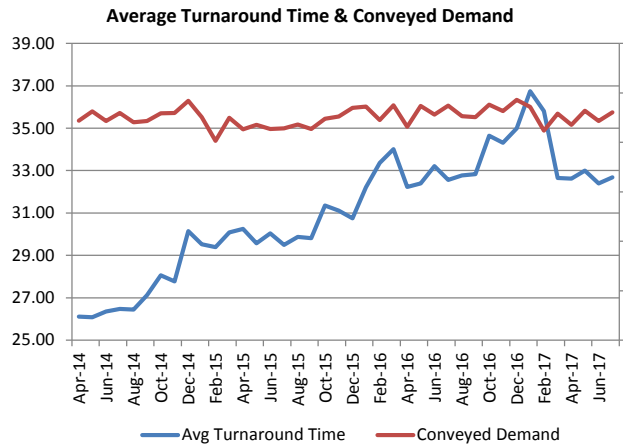

Commentary

The tail of performance in Category 1 calls has remained fairly static despite an increase in category 1 demand over the last 3 months. The same however can not be said for Category 2 and 3 which have both shown steady increases month on month for the last 4 months despite demand in these categories of calls not increasing at the same rate as the tail.

Some of this may be accredited to maintaining category 1 performance against the increase in demand in this category therefore reducing available resource for category 2 & 3 calls.

9.5 Hospital Turnaround Times

9.6 Conveyed Job Cycle Time

Commentary

Turnaround times: for July were 0.9% higher than June and 0.4% higher than July last year. This is broadly in line with turnaround times seen throughout summer months in 2016.

A 1 minute reduction in patient handover results in 8,895 hours; equating to the increased availability of 7 full time ambulances a week.

A 5 minute reduction in patient handover results in 44,476 hours; equating to the increased availability of 36 full time ambulances a week.

Job Cycle time: showed a slight decrease on June of (1.0%) and is a slight increase of 0.2% vs last year.

Excessive hours: lost at hospital were higher in July than June by 279 hours a increase of 17.0%. However this is significantly lower than July last year showing a decrease of 628 hours, a decrease of 38.2%. Northern General, Pinderfields and York have been impacting on performance.

9.7 Hospital Turnaround - Excessive Responses

	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Apr	May	June	July	Last 12 months
Excessive Handovers over 15 mins (in hours)	2,187	2,162	3,149	2,923	3,160	4,149	3,208	1,727	1,509	1,728	1,367	1,646	28,915
Excessive Hours per day (Avg)	71	75	102	97	102	138	103	56	50	56	46	53	79

Daily Average by Hospital (1 or more hours lost per day)

9.8 Vehicle Deep Cleans (5 weeks)

% of Breaches outside window

9.9 Vehicle Age

9.10 Fleet Availability

Trust Wide Average A&E Fleet Availability: July

Commentary

Deep clean: The Deep Clean Service level for July fell from 96.3% (excluding VOR's) to 91.8%. This follows a limited increase in availability of operational vehicles. The current vehicle unavailability trend continues to be linked to the two-fold issue of vehicle availability due to new rotas and limited utilisation.

Availability: Availability has increased during July with the completion of the new vehicle replacement programme. However Fleet is still progressing with the tail lift projects (replacement frames and platforms) which is affecting the overall availability. Although the figures are showing a number of spares this is due to the use of averages, there is extreme pressure on the vehicle fleet with vehicles being moved on a daily basis to cover operational shifts.

9.11 Workforce

Jun 2017 (FT Equivalents)	FTE	Sickness (5%)	Absence (25%)	Available	
				Total	%
Budget FTE	2,260	113	565	1,582	70%
Contracted FTE (before overtime)	2,159	86	466	1,607	74%

% Variance	(4.5%)	23.8%	17.6%		
FTE (worked inc overtime)*	2302.8	86	466	1,751	76%
Variance	43	27	99	169	10.7%
% Variance	1.9%	23.8%	17.6%		

* FTE includes all operational staff from payroll. i.e. paid for in the month converted to FTE ** Sickness and Absence (Abstractions) are from GRS

9.12 Training

9.13 Sickness

Commentary

The number of Operational Paramedics is 923 FTE (Band 5 & 6). The difference between contract and FTE worked is related to overtime. The difference between budget and contract is related to vacancies.

PDR: Currently at 77.9% against stretch target of 90%. This is a decrease of 0.8% vs last month and is 0.4% above the Trust average

Sickness: Currently stands at 5.4% which is an increase of 0.8% vs last month and is 0.2% below the trust average of 5.6% with consistent levels achieved over the last 12 months

Recruitment : Recruitment is behind plan. This has been reviewed and extra recruitment of ECA's has been authorised to correct this position

Patient Experience Survey - Qtrly	85.9%	85.9%

9.16 Quality, Safety and Patient Experience

9.17 Patient Feedback

Commentary

Incidents: Total reported incidents decreased 14.2% on last month but is up by 3.6% against July last year. This is not as high as in previous months however it should be noted that figures are now benchmarked against a period of increased reporting which occurred during the last twelve months. Incidents of moderate harm and above have remained at a low level as in previous months.

Feedback: Complaints increased on the previous month but compliments remain high accounting for more than half (52.3%) of all patient feedback.

9.18 ROSC & ROSC Utstein

9.19 STEMI - Care Bundle

Stemi - Care Bundle

9.20 Survival to Discharge

Commentary

ROSC: ROSC (overall) performance for April 2017, 27.8% is down from March's figure of 33.9%. This shows a decrease in the proportion of patients with return of circulation. In terms of patient numbers, YAS achieved ROSC for 87 out of 257 patients in March 2017, and 65 out of 234 in April 2017. This can be attributed to a decrease in both numbers of cardiac arrest patients as well as number of patients who had ROSC.

Survival to Discharge: Survival to discharge overall has shown a decrease in performance from March (11.4%) to April (8.8%). 28 patients survived to discharge in March and 20 in April. However, April saw a decrease in the overall number of patients who had a cardiac arrest; 245 in March and 224 for April. Survival to Discharge within the UTSTEIN comparator group mirrors this decrease in performance from March (47.7%) to May (24.4%). 21 out of 44 patients survived in March, compared to 11 out of 45 patients within April.

Stemi-Care Bundle: STEMI care performance has decreased slightly, with May's figure of 81.5% (101 out of 124 patients) being up from June which saw 87 patients out of 110 patients, 79.1%, receiving the appropriate care bundle. A possible cause of this could be attributed to the number of incidents which failed on the analgesia element of the care bundle.

9.21 Activity

Commentary

Demand : Increased 4.5% vs last month.

Answer in 5 sec: Increased by 0.3% vs last month and at 95.2% represents the best level of performance for 11 months and also 0.2% above target

Category 1 Performance project team supported by AACE is currently working through actions to support medium to long term performance to change the delivery of EOC. Continuous early capture for purple details is ongoing which will see improvements to performance and patient outcomes. Increased use of capacity planning has led to stabilising EMD capacity. The introduction of a BI tool for EOC management is now embedded enabling closer monitoring of team and individual performance.

9.25 Training

9.26 Sickness

Commentary

PDR: PDR compliance stood at 73.9% in July against a stretch target of 90% which is an increase of 3.2% on previous month. This is 3.6% below the trust average but has improved over the last 3 consecutive months.

Sickness: Currently at 3.7% which is an increase of 0.5% on the previous month and compares favourably against the 5.7% Trust average.

Recruitment: Recruitment is continuing to increase the number of call handlers to bring numbers up to the required level of call taking capacity. Attrition has also reduced over recent months.

10.2 KPI* 2 & 3**

KPI 2* Arrival prior to appointment
KPI 3** Departure after appointment

10.3 Performance KPI*** 1 & 4****

KPI 1**** Inward - Picked up no more than 2 hours before appointment time

Commentary

PTS demand in July is down on the previous month with total activity decreasing by 3.7%.

Inward performance (KPI2) rose slightly in July to 88.6% which is 5.7% above the making appointment on-time target.

The outward performance (KPI3) slightly increased from last month and is now 2.3% below the annual target of 92%.

Performance against KPI1 increased by 0.2% percent in July and is 2.9% above target.

The performance of outward short notice bookings picked up within 2 hours (KPI4) improved from 83.5% in June to 86.3% in July, but remains below the 92% target. Commissioned levels of resource vs KPI4 target will always make this particular KPI challenging.

10. PATIENT TRANSPORT SERVICE

July 2017

10.4 Deep Clean (5 weeks)

% of Breaches

10.5 Vehicle Age

10.6 Vehicle Availability

Commentary

Vehicle availability remained at the same level as the previous month and at 93% is below the 95% trust target. This shortfall is because of general fleet maintenance due to vehicle age and issues relating to road traffic collisions.

The proportion of vehicle deep clean breaches decreased from 4.6% in June to 3.8% in July. A common theme for vehicle cleaning breaches is due to vehicles being off road, in workshop or relocated to cover shortfalls in other areas.

Figures for July show that 7% of PTS fleet is aged over 10 years old which is down from 11% recorded the previous month.

10.7 Workforce

FT Equivalents	FTE	Sickness (5%)	Absence	Available	
				Total	%
Budget FTE	595	30	119	446	75%

Call Answered in 3 mins - Target 90%		75.4%	81.5%

10.11 Incidents

10.12 Patient Feedback

Commentary

Incidents: The number of reported incidents within PTS decreased by 11 (-9.3%) vs last month and remains below that of the same period last year by 8 (-7.0%). Levels of moderate harm remain low.

Patient Feedback: Patient feedback figures are down by 11 (22%) on the previous month. Closer inspection of the 4 Cs (complaints, concerns, comments and compliments) reveal the number of complaints decreased from 28 to 7, however, the number of concerns rose from 18 in June to 26 in July. The YTD average number of complaints each month is 14 equating to a complaint rate per PTS journey of 0.02%.

11. NHS 111

Jul-17

11.1 Demand

11.2 Performance

11.3 proportion calls transferred to a clinical advisor

Commentary

Figures for July 2017 show that 91.3% patient calls were answered in 60 seconds a 1% rise from the June outturn. Commissioners are however aware that the 2017/18 contract settlement does not fund the service to meet this KPI.

Calls continue to track closely with the contract ceiling with calls in July marginally below (-1.7%). Compared to last year YTD at end July demand is up 5.4% and performance is down 3.5%.

The 2 local clinical KPIs for 2 hours call-back (92.0%) and warm transfer / 10 minute call-back (45.9%) have had the strongest performance in last 12 months with increases in clinical staffing.

Clinical advice is exceeding the 30% NHS England target.

11.4 Demand

YTD	Variance	YTD 2016-17	YTD 2017-18	Diff	Percentage
		43,135	86,003	42,868	99.4%

11.6 Performance

11.5 Tail of Performance

11.7 Complaints

Adverse incidents	
Adverse incidents	No SI's reported in July.
Adverse reports received	No adverse reports received
Patient Complaints	21 patient complaints received in Jul-17 directly involving the LCD part of the pathway. 2 upheld, 2 partially upheld, 1 not upheld and 16 remain under investigation.

Comments: Patient demand levels for WYUC in Jul-17 in comparison to Jul-16 marginally decreased by 1.9% (410 cases) continuing the general reduction in demand seen over the last 12 months. NQR performance dropped compared to last year (46.5% emergency 53.4% July 16 / 61.9% urgent 63.3% July 16 / 93.3% routine 95.2% July 16). The drop in performance and actions to improve this have been discussed in the WYUC review task and finish group.

11.8 Workforce FTE - Call Handler & Clinician

Available

	FTE	Sickness	Absence	Total	%
