Legal implications/Regulatory requirements <i>If 'Yes' – expand in Section 2. / attached paper</i>		<input checked="" type="checkbox"/>	<input type="checkbox"/>
ASSURANCE/COMPLIANCE			
Care Quality Commission Choose a DOMAIN(s)		1: Safe	
NHSI Single Oversight Framework Choose a THEME(s)		4. Operational Performance 2. Quality of Care (safe, effective, caring, responsive)	

1.0 OVERVIEW

- 1.1 In September the Trust Board was presented with the findings following completion of the Emergency Preparedness, Response and Recovery (EPRR) Statement of Compliance as set out in the NHS England Core Standards and the Annual NHS EPRR self-assessment process.
- 1.2 The rating of the Core Standards was Substantial and Interoperability Non-Compliant. However following discussion with partners from other ambulance trusts it was felt there was an error in the original worksheet. This was escalated to NHS England. This has now been ratified and following the transfer of information it resulted in an increased level of compliance for Yorkshire Ambulance Service for the interoperability standards.

2.0 TRUST COMPLIANCE 2019

- 2.1 The Yorkshire Ambulance Service has assessed itself as:

SUBSTANTIALLY - compliant in the **EPRR Core Standards** and **SUBSTANTIALLY** - compliant for **Interoperable Capabilities**.

The Deep Dive around severe weather, long term adaption planning and control room resilience are **not rated this year**. An action plan has been developed for all partial and non-compliant elements, including those under the deep dive section even though the Trust will not be formally monitored on the delivery of these.

EPRR Assurance Area	Assurance Rating
EPRR Core Standards	Trust is 98%* (56 fully compliant out of 57 standards) compliant.
Deep Dive – Severe Weather Long Term Adaption Planning Control Room Resilience	Trust is 83% complaint. The below breaks down into the specific areas: Severe Weather – 100% Long Term Adaption Planning – 40% Control Room Resilience – 80%
Interoperable Capabilities	Trust is 92% (151 fully compliant out of 164 standards) which is deemed substantially compliant. Each of these areas has an action plan in place to address.

Note: *Trust achieved 96% in 2018

3.0 EVIDENCE

- 3.1 To demonstrate compliance the Trust must be able to provide the information and data as requested within the self-assessment matrix document that withstands its own internal scrutiny and that of NHS England and Commissioners.

4.0 NEXT STEPS

- 4.1 The self-assessment matrix and statement of compliance was submitted to the Regional EPRR NHS England team on the 31st October 2019.
- 4.2 The Accountable Emergency Officer (AEO), along with the Associate Director of Operations will attend the Local Health Resilience Partnership 'Confirm and Challenge' meetings week commencing 18 November 2019. If no changes are required the final self-assessment matrix and statement of compliance will be submitted to NHS England.
- 4.3 If any changes are required to the self-assessment from the 'Confirm and Challenge' then the Trust Board will be informed of this on the 28th November prior to the final submission to NHS England in December 2019.
- 4.4 The AEO and Associate Director of Operations will ensure the actions within the action plan are completed and demonstrate this as part of the Trust's governance and monitoring structures.

5.0 RECOMMENDATIONS

- 5.1 The Trust Board are asked to **NOTE** the change of the YAS EPRR self-assessment and statement of compliance.
